B A Y A N K H A N

This is the brightest sealing-wax yellow that we have seen, of Mr. White's - among his last seedlings. The domed standards are of a clear color. The falls are the same but with considerable splashings of grayed egg-plant. Fertile both ways.

Unknown M - L 42" (White '62) net \$12.50

H A R E M G I R L

The originator of this beautiful Iris wishes to remain unknown why - we cannot see for it is an excellent flower of good substance and most unusual coloring. The domed standards are soft, between an orchid and lavender, while the semi-flaring falls are old rose. The entire flower is striated with deeper tones. It is extremely fertile both ways and was one of the garden highlights.

Oncochloa Species

- ATROFUSCA Israel VE 14" net \$ 1.00
While variable in color. It is typically almost black. Signal is even deeper in tone. Very fertile - even on Arilbreds.
- ATROPURPUREA Israel E 10" net \$.75
Varies in both form and color. Red through bronze to black. It is an easy grower and excellent for breeding work.
- BARNUMAE Israel E 5" net \$ 2.00
Taller and different than its variety - mariae. Has vinaceous-crimson blooms with a black signal and beard.
- BENJAMINII Israel E 10" net \$ 1.50
Standards off-white with faint violet veins, giving the blooms a blue cast. Falls darker with brown-purple veins and signal.
- EGGERI Israel EE 10" net \$.75
A bronze-brown variety of I. atropurpurea. Easy grower.
- GATESII Turkey ML 18" net \$10.00
One of the largest Oncos. Usually a greenish yellow with faint veining. Stock very limited.
- HAYNEII Israel E 10" net \$ 1.25
Large, with light mulberry standards and crimson-black falls, a cast of bronze. Signal patch is mahogany-black.
- HERMONA M 12" net \$20.00
Like I. nazarena, a bit smaller with bluer standards and much easier to grow. It increases well. Only three to go.
- LORTETTII Israel M 12" net \$ 3.00
Large globe with creamy falls intensely sprinkled with dots and lines of palest red-purple. These become quite concentrated at the large signal. White standards have faint lilac-pink lines.
- MARIAE Israel E 6" net \$.75
Much like the species Barnumae. Beautiful color.
- NAZARENA Israel E 14" net \$ 1.00
Spectacular! Silver-white standards, lined light violet. Straw-yellow falls with heavy, embossed dots and veins of chocolate.
- SAMARIAE Israel M-L 14" net \$4.00
A glorified I. lortettii with almost red coloring.
- SUSIANA Unknown M 14" net \$ 3.50
Best known of all Oncos.. Large globular flowers are pearl-gray with intricate veins and dots of dark maroon-purple. It is fertile both ways - wonderful progeny. Stock always limited.

Several species usually offered have had to be withdrawn in order to propagate stocks - they will be offered again as soon as quantities warrant. If you are a beginner, may we point out to you, that the hybrids are usually much easier to grow. Many are now relatively inexpensive. We will be happy to make suggestion as to the most suitable - write us.

Oncocyclus Hybrids

BAGDAD BEAUTY 121 (Austin '58) net \$ 4.00

A rose-red bitone. Standards silver-white, flushed lilac-rose veined deeper color. Falls bronze-crimson. It has a dark brown signal. Grows easily, increases rapidly, blooms freely,

CHALDEAN TREASURE (White '60) net \$ 6.00

Yellow bi-tone with a deeper red and orange signal. Good breeder both ways. Probably from I. auranitica. Scarce.

HATHOR 10" (Austin '60) net \$6.00

Quite similar to the preceding but not so vigorous. Breeds.

JUDEAN BEAUTY SPOT (Austin '60) net \$10.00

A large, handsome hybrid which could have nazarena and susiana blood. The silver-lavender standards have a dotted, almost embossed pattern with violet veining. Straw colored falls have violet veins and a black-maroon signal. Fertile.

JUDEAN BONNET 15" (Austin '60) net \$ 7.50

Similar to the preceding but with lighter standards of pastel-lavender with orchid veins. Large red-black signal patch.

JUDEAN CHARMER 10" (Austin '57) net \$ 4.50

Rose-orchid standards with deeper veins, falls of buff-straw the veins of maroon converge to a black-maroon signal. Fertile.

NATURAL HYBRID 16" Israel net \$ 1.00

Grows well and is the reddest of the natural species or cultivated hybrids. It is quite fertile and should be of value in a breeding program.

PURPLE PIXIE 12" (Austin '61) net \$ 1.50

This is such an easy grower and fast increaser that we are listing it at this low price. Do not underestimate it. Much like a small susiana although at times the standards are open. Has no pollen but sets easily. Pure Onco.

Many of the parentages of the foregoing are regrettably missing but all are crosses of pure Oncocycli and are in themselves of course, pure Oncocyclus. Most of them show more vigor than the species - are easier to grow and increase far more rapidly. Almost all are fertile both ways on many Arilbreds and of course on pure Arils.

Due to adverse weather conditions, we find that some years varieties or species bloom with no pollen or fail to produce seed. We have several crosses where Bagdad Beauty was the pollen parent in past years, yet this spring not a single bloom out of about 300 showed a single grain of pollen.

Regelio-Cyclus Hybrids

- A G A T H A (Van T '94) E 20" net \$ 3.00
(I. korolkowi Leicht. x ...) X (I. susiana)
Silvery standards and falls, flushed and veined heliotrope.
- A M P H I O N (Van T '59) L 20" net \$ 2.50
Standards white, lined violet, falls same, lined bronze with a brown signal patch.
- A N C I L L A (Van T '57) M 14" net \$ 2.50
White standards, veined soft blue - falls same, lined in gray-brown with a black signal patch. Reminds one of I. nazarena.
- A N D R O M A C H E (Van T '15) VE 18" net \$ 1.50
I korolkowi violaceae X I. mariae
Silver bloom with dots and veins of wine-red. Dark signal.
- A R T E M I S (Van T '08) VE 20" net \$ 1.00
I. korolkowi violaceae X I. susiana
Elongated korolkowi type bloom in off-white, patterned in carmine-violet. Good breeder and will take some summer moisture.
- B O C E N A (Van T '57) EM 20" net \$ 1.25
Standards deep violet, veined in purple. Falls are bronzy black
A fine variety with large flowers.
- C A M I L L A (Van T '23) E 12" net \$ 1.25
I. korolkowi X I. paradoxa
Deep blue-purple standards, falls are off-white and have purple veins and a black signal. A really charming variety.
- C H I O N E (Van T '57) E 15" net \$ 1.25
White standards veined in soft blue. Falls are netted in gray-ed brown. Very free flowering.
- C L A R A (Van T '57) M 16" net \$ 1.75
Child of I. susiana. Quite different in coloring. The large, globular flowers are of bronze, with shadings and signal patch of violet-black. Good breeder.
- C L O T H O (Van T '57) M 16" net \$ 2.25
Deep purple veins cover a light toned standard, while blackish veins net the purple falls. It has a sable beard.
- C Y T H E (Van T) E 18" net \$.75
White, medium sized flowers, striped in bright violet-purple, accented by a purple-black signal patch.
- D A R D A N U S (Van T) E 18" net \$.75
I. korolkowi concolor X I. iberica
A pearly white flower, standards shaded and veined in lilac. The falls have purple veins to match the signal patch.
- E L V I R A (Van T '57) M 16" net \$ 2.50
Standards of soft violet: falls of creamy white, with netting of brownish purple. Very interesting A.M. Haarlem '59
- E U C H A R I A (Van T pre '11) 14" net \$ 2.00
Light colored bloom, flushed in pink, with veining of a deeper tone. Scarce - fertility not known.

E U N I C E (Van T pre '36) 14" net \$ 2.00

I. korolkowi concolor X I. iberica
The pearl-gray standards have soft violet veins, the falls of cream have a netting of soft fawn-pink.

G R A V U R E (Werckmeister '61) M 18" net \$10.00

Regeliocyclus X I. susiana
Sold out last year and offered subject to import possibility. A bloom of large size in grayed silver, with strongly accented veins and dots of deep violet. Even the style crest is veined. Definite black signal. Excellent breeder and quite vigorous.

H E R M I O N E (Van T '30) VE 22" net \$2.50

One of the largest and tallest of the RC's. Soft grayed standards flushed silver-mulberry intricately veined in deep purple black. Falls silver-white, veined dark maroon. Black signal.

I S I S (Van T ere '07) 14" net \$ 2.50

I. korolkowi violaceae X iberica Van Houtteei
Standards between carmine and fuchsia. The falls are of light buff, overlaid with maroon veins. Black signal patch.

L U T E T I A (Van T '59) M 18" net \$ 2.50

Large rounded flowers of bronzy brown with a broad, intensely black signal. A really superb flower the size of susiana.

P A R T H E N O P E (Van T ere '11) 15" net \$3.00

White with a silver dusting and netting of mulberry and maroon. Black signal and beard. Chartreuse anthers.

P E R S I A N B R O N Z E (Austin '56) 18" net \$ 1.50

Teucros X I. auranitica
A beautiful bronze self, flushed lilac, with a dark brown netting. It's Onco-like signal is brownish black. It is an easy grower which increases well and sets seed readily.

P E R S I A N D A M A S K (Austin '61) 21" net \$ 7.50

Teucros X I. susiana
A large, handsome flower in pale, gray-silver. The standards are flushed mulberry, veined mulberry-black. The large, convex falls are more deeply colored. Large, black signal patch.

P E R S I A N E M B R O I D E R Y (Austin '61) net \$ 5.00

Teucros X (Teucros x I. auranitica)
This sister to PERSIAN LACE is much like it although not quite so large. Standards are beautifully arched, of a silver-white, veined at the edge with fine, black-violet lines. The falls of creamy silver are flushed pink in the center. Lightly peppered and veined maroon. Large signal of mulberry-black.

P E R S I A N P A N S Y (Austin '60) M-L 14" net \$ 1.50

I. nigricans X Late Amethyst
Pansy-purple with an intense yellow throat and a shining black signal. An easy grower - fast increaser and excellent breeder.

P E R S I A N T W O T O N E (Austin '58) net \$ 2.50

Teucros X (Teucros x I. auranitica)
Standards large and waved of silvery white, flushed in lilac-pink, finely veined and dotted violet. Buff-cream falls, heavily dotted and veined in maroon with a dark signal.

P S Y C H E (Van T ere '07) 15" net \$ 2.00

I. korolkowi X Van Houtteei
A lovely flower of silvery white with a light flush of pale pink. It is veined in maroon and has a black signal patch.

S Y L P H I D E (Van T '55) ML 15" net \$ 3.00

A large globular flower in silver-white, standards veined pale gray. Falls have deeper veining and an almost black signal. It is fertile both ways. Most dramatic bloom.

TEUCROS (Van T) EM 18" net \$ 1.50

I. korolkowi X I. iberica

Standards are soft pink with darker veins - the falls of silver white are pink flushed and veined maroon. Black signal patch.

THESEUS (Van T) EM 21" net \$ 1.00

Deep violet standards with deeper veins. The cream-white surface of the falls is netted deep violet. Signal the same.

THOR (Van T '32) VE 12" net \$ 1.00

I. korolkowi X I. sari

The pearl-gray ground is netted in heavy purple veining. Signal is even darker in color. One of the few with sari in its pedigree. A triploid, we understand.

* * * * *

The newer Van Tubergen varieties, AMPHION, ANCILLA, BOCENA, CHI* ONE, CLARA, CLOTHO, ELVIRA, LUTETIA and SYLPHIDE have parentages that were lost in the war. They are mostly Regeliocyclus X Onco and are extremely handsome and very superior in a great many ways. They all good breeders and relatively inexpensive.

* * * * *

We have rather extensive collections of many PLANTS and BULBS. TROPICAL PLANTS and FERNS and especially BROMELIADS we have in considerable numbers - we publish a rather comprehensive List of the latter plants which may be had for the asking.

While our Gardens are usually open, it would be well for Visitors to call Gilbert 3-8233 to make certain of an appointment, before paying us a call.

The ARILS are usually in bloom the latter part of March and all of April. The C. G. White HYBRIDS follow and then the MOHRS and others bloom well into May. Although we do not list the TALL BEARDED, we have several hundreds - their flowers extending into June.

AMARYLLIS and HEMEROCALLIS follow and there is color for several months. You are most cordially invited to visit us at these blooming times - or at any time.

Regelia Species

H O O G I A N A E 18" net \$.75

Tall, graceful, distinctive type in Oxford-blue. It was discovered in quite recent times. Charming - excellent breeder.

H. PURPUREA E 24" net \$.75

A rich, royal purple form with a deeper purple signal. Beard is of brilliant yellow.

B L U E J O Y (Austin) E-M 20" net \$.75

A selected clone of light blue with little of the lavender. The falls are wider and more flaring than the type.

L A T E A M E T H Y S T (Austin) E-M 20" net \$.75

Another selected form that blooms about the last of the Arils. It's name indicates it's color and habits.

K O R O L K O W I I E 20" net \$ 1.25

A delightful species, all of whose forms have the typical elongated shape, Creamy white with chocolate veins and signal.

K. CONCOLOR E 18" net \$ 1.50

A smooth heliotrope form with pink tinge and fine veins. which are dark red-violet. Parent of many fine Van T. Regelia-Cycli

K. VIOLACEAE E 16" net \$ 1.00

White ground, heavily flushed and veined red-violet.

B R O W N & G R E E N (Austin) E 18" net \$ 2.00

A fine selection of silver-white with maroon base. It is beautifully veined in brown, with signal and beard of the same.

P I N K (Austin) E 20" net \$ 2.00

Perhaps the outstanding variant of this group. It is of creamy pink with prominent maroon veins and a blue beard.

S T O L O N I F E R A E 20" net \$ 1.00

The last of the three Regelia species. Slender and elongated, it is a blend of cream, buff-brown and rose-purple.

S. CONICAL E 20" net \$.75

A lovely bronzy lilac-pink with a soft blue beard. All Regelias make lovely corsages as well as floral arrangements.

S. LEICHTLINI E 20" net \$.75

Was once given specific rank but later included in this group. Color similar to others but more ruffled and deeper in tone.

D E C. B L U E B E A R D (Austin '57) EM 20" net \$ 1.50

A superior selection - better form. A heavy bloomer.

D E C. D E L I G H T (Austin) E 18" net \$ 1.50

A dainty variant with ruffled blooms. White standards, picoteed in brown. The falls are bordered and veined somewhat deeper in brown. Another selected clone.

D E C. G I A N T (Austin) E 16" net \$ 1.50

Almost twice the size of the preceding which it otherwise resembles. Falls velvety mahogany, veined crimson.

R E A L H A R M O N Y (Austin) E 18" net \$ 1.00

Standards soft amethyst to russet - falls velvety bronze-red.

RED WHITE & BLUE (Austin) E 20" net \$ 2.50
Rich, dark, velvety red falls with lighter border. Standards of white, edged in brown while the beard is lilac-blue.

REGELIAN MEDLEY (Austin) M-L 12" net \$ 2.50

Regelia Hybrids

BRONZE BEAUTY (Van T) E 24" net \$.75
I. hoogiana X I. stolonifera
Standards golden bronze, veined lavender. Falls dark wine-red edged in bronze. Cream beard.

LUCIA (Van T '16) E 20" net \$ 2.00
I. korolkowii X I. stolonifera
A handsome ruby-red bloom with elongated form. There is a decorative beard of steel-blue that is most distinctive.

CRESTES (Van T '21) VE 18" net \$ 1.25
I. korol. violaceae X I. stolon. leichtlini
Rich mahogany-red with a brown beard. Slight frilling and waved with an iridescent purple and violet overlay.

VERA (Van T '58) E 18" net \$ 1.75
Chocolate-brown, shaded purple with an azure-blue beard. Quite free flowering.

VULCANUS (Van T) E 18" net \$ 1.00
I. korolkowii X I. stolonifera
Slender and pointed flower of chocolate-brown. The violet patch has a glossy texture - blue beard.

C. G. White Arilbreds

This is such a distinctive group of hybrids, that we are giving it separate coverage. In most cases, these hybrids display more Oncocyclus characteristics than others with Onco in involvements and almost all are fertile both ways. few if any records were kept and in most cases parentages are unknown. THE ARIL SOCIETY has observed what it considers a safe margin. This margin recognized as containing one half Onco blood. Actually, many of them have as much as seven-eighths, possibly more. All are colorful and exotic and of great value to both breeder and gardener. Listed here you will find the most complete collection offered commercially.

* * * * *

ABDALLAH KHAN (White '61) E 36# \$ 7.50

This is a large flower with domed standards, which are in canary-yellow. The fairly wide falls are deeper in tone. with occasional flecks of purple. H.C. '60 (W-56-4)

AHMED AGA (White '53) E 30" \$ 5.00

A much patterned flower with lavender standards and splashings of violet with gold veins. The falls are cream-buff edged in chamois with a brown signal patch.

ARJUNA AGA (White '53) E-M 30" \$ 3.50

A tall, vigorous bi-tone with toast standards and brown falls which are decorated with a deeper brown signal.

ASOKA of NEPAL (White '50) E-M 30" \$3.00

Standards are pale mauve with fine violet veins with ribs of a greenish yellow. Falls are olive-ochre, netted in a wine-russet splashed in black-crimson. Fine breeder - several good progeny are now on the market.

BALI AGHA (White '52) E-L 33" \$ 3.00

The lavender standards are veined in purple while the contrasting buff falls are netted russet-wine, splashed red.

BEISAN AGA (White '54) M 30" \$ 2.50

Gray-violet with heavy veins of brown-purple, appearing quite red in certain lights. It has a brown beard and black signal.

H.M. '60

BLACK JOPPA (White '54) M 30" \$ 2.50

More refined and subtle than Joppa Parrot. Slate-gray with veining and stippling of brown-purple. Very fertile both ways.

CHENIK AGA (White '54) E 26" \$10.00

A large, highly colored bloom. Creamy standards with splashings of purple-red, falls of golden orange, with black-maroon striations. Most outstanding and fertile. Still scarce.

IMAM ADIB (White '56) E 36" \$ 8.50

A large flower of primuline-yellow with sleight splashings and veining of brown. The beard and signal are also of brown.

IMAM AHMID (White '55) M 35" \$ 5.00

Large blooms with lilac standards veined in violet. The old-gold falls are dusted with powdered gold. Quite vigorous.

IMAM JABAN (White '56) E 30" \$ 2.50

Large bi-color - oyster-white standards and falls of primuline yellow. Very potent pollen - even on pure Oncos.

<u>I N A M</u>	<u>S A L A H</u>	(White '56)	E	30"	\$ 3.50
A huge yellow globe with overtones of amber with a dark signal that is quite striking. Signal sometimes breaks into striations first year of planting. H.M. '60					
<u>J A B A L</u>	<u>K E R A K</u>	(White '55)	E	30"	\$ 5.00
Greenish white standards and lemon-yellow falls, with a deeper purple signal patch. Good breeder.					
<u>J A L L A H</u>	<u>a d</u>	<u>D I N</u>	(White '55)	E	30" \$10.00
A broad petaled bi-color in tans - falls brown with a lighter border. Entire bloom stippled and splashed in darker brown.					
<u>J A L L A H</u>	<u>E F F E N D I</u>	(White '52)	E	32"	\$ 3.00
Green-yellow standards with mahogany veining and red splashing while the falls are yellow, veined red, splashed in purple.					
<u>J O E L</u>	<u>A G A</u>	(White '53)	E	24"	\$ 2.00
A dark, rich-colored hybrid in buff, with a heavily stippled pattern of purple. Small but good - very near Onco.					
<u>J O P P A</u>	<u>P A R R O T</u>	(White '48)	E	24"	\$ 3.50
Perhaps Mr. White's most famous and bizarre creation. Quite Onco-like and <u>must</u> be divided each year or it dies out. Standards are light mauve, streaked mulberry. Falls are of bronze-gold splashed with blackish mulberry. Broad bronze beard. The pollen is very fertile.					
<u>J U M N A</u>		(White '50)	E	36"	\$ 2.00
Soft tones of purple and violet. Black beard - fertile pollen.					
<u>K A L I F A</u>	<u>B A L T I S</u>	(White '54)	E	36"	\$ 3.50
A handsome bi-color of buff and olive. The signal is pronounced Bordeaux-red. Fertile pollen - even on Oncos. H.M. '60					
<u>K A L I F A</u>	<u>F A T I M A</u>	(White '51)	E	24"	\$ 3.00
Suggestive of the true Oncos but easier to grow. A large flower done in gray, blue and purple with an almost black signal.					
<u>K A L I F A</u>	<u>G U L N A R E</u>	(White '54)	E	34"	\$ 5.00
One of the handsomest of this group. Domed standards of pale lavender while the rose falls have a suggestion of henna with a deeper signal and golden buff border. Excellent breeder.					
<u>K A L I F A</u>	<u>H I R F A</u>	(White '55)	E	30"	\$ 5.00
Stunning bi-color of lavender-gray standards, purple splashed old gold falls. A bit scarce and not too well known.					
<u>K A L I F A</u>	<u>K A B U L</u>	(White '54)	E	30"	\$ 6.00
A vigorous plant with a greenish cast to the yellow flowers and splashed in brown. Excellent breeder of great value.					
<u>K A L I F A</u>	<u>K A S H A N</u>	(White '61)	EM	38"	\$20.00
Yellow-ochre standards: falls the same flushed heavily with an amber-brown which turns to henna. Brownish red signal patch.					
<u>K I N G</u>	<u>H E N R Y</u>	(White '56)	E	24"	\$ 2.50
The last Iris to be named by Mr. White. It is in varying colors from rose to red, veined in plum. Extremely fertile.					
<u>L A B A N</u>	<u>E F F E N D I</u>	(White '54)	M	30"	\$ 2.50
Good for arrangements but has no breeding value. Soft lavender standards, deeper markings. Purple falls, black signal.					
<u>M A R A</u>	<u>o f</u>	<u>B E N A R E S</u>	(White '56)	24"	\$25.00
Stock withdrawn for propagation.					

O N C O " B " (White '61) M 30" \$ 5.00
 " B " does not denote any code used by Mr. White. Domed standards, slightly frilled, of gray-mauve flushed old gold. Antique gold falls flushed in lavender-orchid are veined in brown. The small dark signal patch is purple.

P A L I o f B A C T R I A ('51) E 30" \$12.50
 The deep lavender standards have a mid-rib of greenish yellow with lavender veining. The falls are similar with golden brown at the hafts.

S A Y Y E D Y A R M U K (White '52) E 30" \$12.50
 Large and prolific. Light violet standards and a dark egg-plant or raisin fall bordered in buff. Abundant pollen and sets seed easily. Also in rather scarce supply.

T A T A I P A S H A (White '55) E 30" \$ 3.25
 A large yellow, of tailored form. The falls are penciled in an unusual shade of deep russet and further accented by the brown signal patch. Also a good breeder.

V I N A Y A o f S H A N K A R A ('51) 40" \$10.00
 Large, quaker-drab blooms with primuline-yellow veining, which becomes deeper at the haft. Prolific grower.

* * * * *

C. G. WHITE "O L D I E S"

Some of these hybrids are fertile, others are sterile, but all we think are charming. Many are scarce - we keep only a limited stock to supply Collectors and Hybridizers. Each \$ 1.00

The Aril Society

Arilbred Iris

<u>A L L E G R I A</u>				<u>\$ 1.50</u>
Artemis X Rickardi				
Reddish purple of Onco form. Very easy to grow. Evergreen				
<u>A N Y T I M E</u>	(Cavagnaro '56)	M-L	40"	<u>\$ 5.00</u>
Alba Superba X Lady Mohr				
A flower of large, wide flaring falls in white with pale yellow green lines at the haft. Heavy substance and sets seed.				
H.C. '54 - H.M. '56				
<u>A P P I A N W A Y</u>	(Plough '58)	E-M	45"	<u>\$ 5.00</u>
Snow Flurry X Capitola				
Standards are light violet with falls of deeper violet. Good.				
<u>A R D I M A C</u>	(Sundt '59)	E-M	26"	<u>\$ 5.00</u>
Ardrun X Ib-Mac				
A prolific breeder. Violet-purple standards with maroon falls, a black signal and blackish beard. It pads easily.				
<u>A R D R U N</u>	(McLeod '51)	E	26"	<u>\$ 3.50</u>
Artemis X Gudrun				
A large, purple-red (almost rose) flower, which has a dramatic, , huge, brown-black beard. Excellent breeder.				
H.C. '53				
<u>B L U E D O L P H I N</u>	(Wallace '55)	E-M	32"	<u>\$ 2.00</u>
Snow Flurry X Capitola				
Light violet-blue with blue tipped beard. Clean hafts.				
<u>B L U E G A T E</u>	(Plough '60)	EM	32"	<u>\$12.50</u>
(Sport of Eastmont)				
Standards of hyacinth-blue, faintly veined in light violet. The falls are buff-gray, veined and dotted in mustard-yellow. Very fertile both ways - even on pure Arils				
H.M. '61				
<u>B L U E M O T I F E</u>	(Linse '58)	M	38"	<u>\$ 6.00</u>
New Snow X Capitola				
Flaring, heavily substantced flower, of good form. Green-blue with deeper markings.				
H.M. '61				
<u>C A R E L E S S L O V E</u>	(Linse '59)	M-L	36"	<u>\$10.00</u>
(Butterfly Wings X Unknown)				
Interesting progeny of Butterfly Wings. It is larger, finer, & better than it's famous mother. Standards are pale lemon-yellow with flaring falls of golden green-yellow, with a center flush and veining of violet. Has pollen.				
H.M. '61				
<u>C H A R T R E U S E B U T T E R F L Y</u>		EM	34"	<u>\$15.00</u>
(Butterfly Wings x Cherie) X (Pink Lace x Pink Formal)				
x Striped Butterfly) (Noyd '60)				
Standards yellow, midribs green: falls chartreuse with a brown-orange beard, darker green veins to the lower edge. Has pollen.				
H.M. '61				
<u>D A R L E N E W A T E R S</u>	(Linse '56)	M	38"	<u>\$ 3.00</u>
New Snow X Capitola				
Seven inch, blue-violet flowers with darker violet signal-lines raying from it.				
<u>F L A I R M O H R</u>	(Craig '54)	M	32"	<u>\$ 2.00</u>
(Purissima x Joppa Parrot) X (Capitola)				
A charming flower of grayed blue. Takes after the Mohr parent.				

<u>F O R</u>	<u>S U R E</u>	(Linse '53)	E-M	37"	<u>\$ 2.50</u>
Lady Mohr X Painted Desert Cream standards with a tan flush. Falls deeper, infused violet.					
<u>G A Y</u>	<u>S T R I P E S</u>	(Fielding '58)	M	34"	<u>\$ 2.50</u>
From two C. G. White Oncobred seedlings Fancy plicata, standards silver-gray - falls same, violet veins					
<u>G L A C I E R</u>	<u>M O H R</u>	(Crosby '57)	T-M	36"	<u>\$ 2.50</u>
Purissima X Capitola Cool blue-gray with subdued Onco veining. Quite vigorous.					
<u>G I A N T</u>	<u>M O H R</u>	(Austin '58)	M	44"	<u>\$ 3.50</u>
reported One fourth Onco An improved and glorified Wm Mohr of deep manganese-violet.					
<u>G O L D E N</u>	<u>C E N T U R I O N</u>		M	40"	<u>\$ 2.50</u>
Centurion X Phosphorescent (The Court of Iris '61) Standards brilliant golden-yellow, falls of copper-orange bordered with gold. Fertile both ways: brilliant. Few Onco traits.					
<u>H O O G I M A C</u>		(Sundt '60)	EM	26"	<u>\$ 2.00</u>
Spotless X Ib-Mac Regelia form - spectrum violet; standards campanula to off-white					
<u>H O T</u>	<u>T O D D Y</u>	(Linse '57)	M	33"	<u>\$ 4.00</u>
Butterfly Wings Sdlg X Pineapple Sherbet Greenish yellow, spotted and splashed with red.					
<u>H U N T</u>	<u>M O H R</u>	(Hunt '56)	ML	36"	<u>\$ 2.50</u>
Elmohr X Great Lakes (probably) A self of violet-blue in flaring, ruffled form.					
<u>I N C A N D E S C E N T</u>		(Plough '58)	E-M	26"	<u>\$ 2.50</u>
Inca Chief X Asoka of Nepal) Standards straw-yellow. Falls dark brown-yellow with molasses red overlay, radiating from the beard.					
<u>J A Z Z</u>	<u>B A B Y</u>	(Noyd '50)	EM	33"	<u>\$10.00</u>
Striped Butterfly X Asoka of Nepal Light orchid-blue standards; falls light green, splashed violet So ugly it's cute - says one grower - however, it has good parents and should give some interesting things.					
<u>J U N G L E</u>	<u>D R U M S</u>	(Plough '56)	EM	28"	<u>\$ 2.50</u>
(Purissima x Capitola) X (Joppa Parrot) Standards gray-lavender, flushed brown, falls buff, and heavily splashed in deep purple. Shows considerable Onco influence.					
<u>M A G I C</u>	<u>L I G H T</u>	(Austin '55)	EM	30"	<u>\$2.00</u>
Theseus X Pink Formal A charming hybrid of silvery pink to rose. Crimson to a darker maroon veining and deep maroon signal patch.					
<u>M A G I C</u>	<u>M O M E N T S</u>	(Linse '59)	M	36"	<u>\$10.00</u>
Butterfly Wings Sdlg X Pineapple Sherbet Ruffled standards of Empire-yellow. The flaring falls of canary yellow are overlaid with a netting of brown and olive.					
<u>M A R B L E D</u>	<u>M O H R</u>	(Tell '58)	EM	40"	<u>\$ 2.00</u>
Wm. Mohr X ((Midwest x M.L.Areau) X (Aldura) Medium violet, splashed in white. Easy grower and breeder.					
<u>M A X I M O H R</u>		(Maxim '58)	EM	36"	<u>\$ 5.00</u>
Elmohr X Mulberry Rose Bright mulberry with a definite Aril-type flower.					
<u>M c L E O D</u>		(McLeod '59)	EM	40"	<u>\$ 7.50</u>
Snow Flurry X I. korolkowi Small flowers					

Small flowers of greenish white - no pollen but will pod.

<u>M E L O D Y</u>	<u>W A T E R S</u>	(Linse '57)	M	36"	<u>\$ 7.50</u>
	New Snow X Capitola				
	Domed and ruffled - flaring falls in sea-lavender violet.				
<u>M I S S</u>	<u>M A R T H A</u>	(McLeod '59)	VE	18"	<u>\$ 2.50</u>
	(Anndelia x True Delight) X I. korolkowi violaceae				
	Regelia-like bloom with light raspberry standards veined deeper red - falls creamy, veined deep maroon and signal to match.				
<u>M O H R</u>	<u>F U N</u>	(Gibson '59)	EM	36"	<u>\$ 3.00</u>
	Nanohr X Capitola				
	Light violet standards, falls mauve shaded violet and tan. Violet tipped beard. Rampant grower - should be a good breeder.				
<u>M O H R</u>	<u>G L O R I O U S</u>	(Tell '52)	ML	32"	<u>\$ 4.00</u>
	Involving Elmohr and Wm Mohr				
	A heavier substantced Elmohr. Sdlg Cup, Utah '51 - H.M. '54.				
<u>M O H R</u>	<u>H A V E N</u>	(Reynolds '57)	EM	35"	<u>\$ 5.00</u>
	Snow Flurry X Capitola				
	Gray-blue self with violet shading at the throat. H.M. '57				
<u>M O H R</u>	<u>I V O R Y</u>	(Sundt '60)	ML	35"	<u>\$10.00</u>
	Purissimohr X Frost and Flame				
	Gorgeous, globular Dresden-yellow bloom with domed standards. A slight recurve to the falls is interesting.				
<u>M O H R</u>	<u>L A C E</u>	(Recknor '58)	ML	36"	<u>\$ 2.50</u>
	Elmohr X Snow Flurry				
	Laced edges on the violet blooms. Gold at hafts. Will pod.				
<u>M O H R</u>	<u>L E M O N A D E</u>	(Tell '58)	E-M	36"	<u>\$ 5.00</u>
	Involving I. hoogiana and Cool Lemonade				
	Lemon self of great charm. Fertile both ways - very vigorous.				
<u>M O H R</u>	<u>M A G I C</u>	(Plough '60)	EM	38"	<u>\$10.00</u>
	Magic Sails X Capitola				
	Deep, rich bi-tone violet, brown-tipped violet beard. H.M.'61				
<u>M O H R N I N G</u>	<u>H A Z E</u>	(Luihn '59)	E-M	36"	<u>\$12.50</u>
	(Snow Flurry X Mitchell Blue Sdlg) X Capitola				
	Large, lavender-blue of perfect form. Blue-tipped beard, slight signal. Gold Cup Sacramento '58 H.C. '57 - H.M. '59				
<u>M O U N T</u>	<u>M A Z A M A</u>	(Bailey '53)	M	36"	<u>\$ 3.50</u>
	Wm. Mohr X Morocco Rose				
	Red-violet self, deeper in center of falls. Mohr type.				
<u>M O U N T A I N</u>	<u>M A G I C</u>	(Crandall '56)		38"	<u>\$ 2.50</u>
	Bryce Canyon X Capitola				
	Standards wine-purple, Falls wine with dark brown overlay.				
<u>N E V E R M O H R</u>		(Craig '55)	E-M	40"	<u>\$ 2.00</u>
	Purissima X Capitola				
	Very dark violet - much deeper than usual from this overworked and hackneyed cross.				
<u>N O</u>	<u>M O H R</u>	(Gibson '54)	M	38"	<u>\$ 1.50</u>
	Snow Flurry X Elmohr				
	Heavily substantced of bamboo-cream. Falls faintly flushed blue				
<u>O N E</u>	<u>M O H R</u>	(Murray '56)	LM	32"	<u>\$ 5.00</u>
	Heather Rose X Elmohr				
	Rose-amethyst self. Mohr shape.				

<u>O R I E N T A L</u>	<u>M A G I C</u>	(Wells '55)	M	37"	<u>\$ 2.50</u>
Seedlings X Capitola					
Fancy plicata. Standards soft wistaria, falls same, striated in orchid-violet. White area around the white beard. Large.					
<u>O Z I E</u>	<u>W A T E R S</u>	(Linse '56)	E-M	36"	<u>\$ 5.00</u>
Spellbound X Capitola					
Deep rose-red and different. A red-black signal patch sets off the flowers which are large and of good substance.					
<u>P I N E A P P L E</u>	<u>S H E R B E T</u>	(Linse '56)		44"	<u>\$ 7.50</u>
(The Capitol x Soquel) X Joppa Parrot					
Large, flaring blooms with oyster-white standards, the falls of pineapple. Well branched. Good pollen parent.					
<u>R O J O</u>	<u>G R A N D E</u>	(Sundt '61)	E	30"	<u>\$20.00</u>
I. susiana X Pink Formal					
Rose-maroon self with deeper maroon veining. Small dark signal and a brown tipped beard. Hardy and an easy grower. Should give interesting seedlings for it is fertile both ways. H.C. '60					
<u>S I L K E N</u>	<u>D A L L I A N C E</u>	(Fothergill '58)		28"	<u>\$ 2.50</u>
I. stolonifera X Bright Melody					
Electric violet-blue, edged in Sienna-brown. Easy grower.					
<u>S I N A</u>	<u>M A R I E</u>	(paul '59)	M-L	38"	<u>\$ 5.00</u>
Elmohr X Three Oaks					
Mulberry-red with undertones of rose-tan. Large blooms.					
<u>S P R I N G</u>	<u>N O C T U R N E</u>	(Boen '60)		32"	<u>\$10.00</u>
Sable X Capitola					
Dark spectrum-violet with a black signal and veins.					
<u>S P R I N G</u>	<u>T O N I C</u>	(Crandall '58)	M	36"	<u>\$ 2.00</u>
Lady Mohr X Pink Formal					
A yellow neglecta which pods easily.					
<u>S T R I P E D</u>	<u>B U T T E R F L Y</u>	(Noyd '58)		34"	<u>\$15.00</u>
Butterfly Wings X Cahokia					
Light <u>really</u> blue self with flaring falls, veined darker blue. Hardy, fertile both ways. H.M. '58 - Runner Up White Mem. '61					
<u>S U L T A N ' S</u>	<u>C A P I T O L</u>	(Edmison '58)		36"	<u>\$ 7.50</u>
Sultan's Robe X Capitola					
A reddish brown blend with the Onco Look. The beard has a protruding crest and slight signal patch. H.M. '59					
<u>S U N F R O S T</u>		(Peterson)	E-M	36"	<u>\$ 5.00</u>
Wm Mohr Derivative					
Yellow amoena with flaring falls. Slightly fertile. H.C. '56					
<u>S U S I M A C</u>		(Sundt '60)	E	15"	<u>\$ 2.50</u>
I. susiana X Ib-Mac					
Flowers like susiana but colored as Ib-Mac. Fertility as yet unknown but should be of interest to breeders.					
<u>T R O P H Y</u>		(Linse '58)	E-M	36"	<u>\$ 8.50</u>
New Snow X Capitola					
Wide flaring blooms of lobelia-blue. A good grower - and large. It will set seed and should be of value. H.M. '58					
White Memorial Award '61					
<u>W I N D</u>	<u>S H A D O W S</u>	(Conrad '59)	EM	40"	<u>\$10.00</u>
White Ruffles X Onco "B"					
Soft pearl-gray with bronzy hafts and beard. A novel and lovely bloom greatly admired at the L.A. Iris Convention. H.M. '59
